PROJECTS

Interview-Based AI Automation & Mock Interviews Website

April 2024 - July 2024

Major Project as a part of the curriculum

- An AI-powered application designed to conduct mock interviews for roles such as SDE, Intern, and Apprenticeship
- Implements intelligent question generation, real-time answer evaluation, and adaptive difficulty tailored to the user's skill level
- Provides performance insights, improvement suggestions, and role-specific feedback to enhance interview readiness

Iris Vision Test – Eye Power Detection Portal

January 2025 - May 2025

Live: <https://iris-vision.vercel.app>

- Developed a web-based application to estimate eye power and vision clarity using interactive tests
- Designed user-friendly UI for conducting vision tests at home without specialized equipment
- Integrated Real-time Messaging using technologies like Web Sockets/Socket.io for fast and seamless chat interactions
- Implemented real-time result analysis and feedback system for users.

Conference Website for Liberal Arts

January 2026 - March 2026

Live: <https://icbd-2026.vercel.app>

- Developed a fully responsive website for managing academic conference information
- Integrated event schedules, speaker details, and registration features
- Ensured cross-device compatibility and smooth user experience
